MONOCHROME WORKGROUP PRINTER FOR A4 FORMATS

THE FLEXIBLE NETWORK PRINTER.

With an excellent 40 pages per minute, an integrated network interface and duplex functionality, the FS-3920DN is the perfect device for workgroups. In order to accommodate different user needs, its flexibility in terms of paper handling and controller functionality is outstanding. Furthermore, the teamplayer knows how to impress with comprehensive security features and exceptionally low cost per page.

- ▶ Up to 40 pages per minute in A4 with up to 1,200 dpi resolution
- ▶ Standard duplex unit for double-sided printing
- ▶ Up to 5 paper trays for superior flexibility and high capacity
- ▶ A6 printing from internal paper cassette
- ▶ PowerPC 440/600 MHz, 128–1,152 MB RAM, optional hard disk
- ▶ USB, parallel and network connectivity as standard
- ▶ Direct PDF Print from USB Flash memory device
- ▶ Exceptionally low printing costs in its class

Various access controls for printing and administration as well as SSL encryption offers the right feature set in security.

Within the first 300,000 pages only toner needs to be exchanged. Easy to identify the recommended original toner.

Ecosys®

KYOCERA

FS-3920DN

MONOCHROME WORKGROUP PRINTER FOR A4 FORMATS

ECOSYS stands for ECOlogy, ECOnomy and SYStem-printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term cross-network compatibility. KYOCERA's long-life components cost you and the environment less.

PRESCRIBE IIe
With the KYOCERA page design and control language PRESCRIBE IIe, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.

The KM NetViewer
The KM NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows© PC and thus provides ideal network administration. It also supports the standardised SNMP protocol.

Status Monitor and Command Center
The Status Monitor shows the current printers condition and gives direct access to the Command Center for the modification of settings that are not contained in the drivers (e.g. network settings, adjustment of sleep mode or blocking of the control panel).

USB Host Interface for USB Flash Memory
PDF files can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. Documents are selected directly via the printer's control panel. No computer is required.
